

In this past week of July, Ukraine Missions has supported the delivery of two additional forty-foot containers of food, medical, and firefighting supplies to Ukraine; five total since the beginning of the war. The latest supplies will feed the war displaced and aid in the care of wounded soldiers and innocent civilians. I would like to offer my most sincere thanks to the members of The Hardin Valley Church of Christ and others who support the mission's effort to extend the hand of HOPE in Christ' name to the Ukrainian people. This effort would also not be possible without the help and support of World of Connections and John Kachelman of the Dalraida congregation.

Here is a "Thank You" transcript from Mariia Chabdaeva concerning the arrival of medical support. Mariia is our co-signee and partner in Kharkiv, Ukraine

*35 For I was hungry and you gave Me food...40 And the King will reply to them, Truly I tell you, in so far as you did it for one of the least of these My brethren, you did it for Me.*

*Matthew 25:35-40 (AMP)*

*Hurray, finally, the truck of medicine came to us for the hospitals of Kharkiv!!*

*The American Foundation, Hardin Valley Church of Christ together with World of Connections is already once again transferring us aid, which will be a valuable support for crowded hospitals in Kharkiv.*

*Thanks to you, hospitals will be able to provide high-quality medical care to those who need it most. You are not only helping us save lives but reinforcing our faith in human kindness and solidarity. Your example inspires us and reminds us that even in the most difficult times, there is room for compassion and mutual help.*

A container of food arriving in Kharkiv

Medical supplies being unloaded

Medical distribution

Boxes of food ready for distribution

*The volunteers of World of Connections sincerely thank Charita Shteynberg and especially Michael Lawson and KH.LIB dopomoga [a charitable organization of volunteers who collect and distribute humanitarian aid]! Your support is invaluable to Ukrainian hospitals and patients.*
